

REMARKS

The specification is amended at pages 13 and 73 to correct typographical errors. Page 27 line 30 is amended to refer to "pygopus" instead of "kinase" as this was obviously intended.

The sequence listing heading <110> now correctly identifies the applicants.

Certain claims are cancelled without prejudice or disclaimer, to remove multiple claim dependencies, to consolidate the claimed subject matter, and to reduce the total number of claims for fee payment purposes. Applicants reserve the right to pursue the cancelled claims in a future continuation application.

Specifically, the amendments to claim 46 find basis in claim 48, and the amendments to claim 47 find basis in claim 49. New claims 54, 55 and 56 find basis in original claims 31, 39 and 40 respectively.

The amendments do not add subject matter beyond the application as originally filed. Entry of the amendments by the Examiner is respectfully requested.

If there are any fees due in connection with the filing of this Amendment, please charge the fees to our Deposit Account Number 19-2550.

Respectfully submitted,

Date: October 14, 2005
